

Approved Licensed Electricians

Valid from Sept. 1, 2008 to Nov. 1, 2008

The following list of approved licensed and insured electricians meet qualifications to both build and install customer owned meter poles according to Fort Loudoun Electric Cooperative (FLEC) specifications. FLEC DOES NOT accept any liability for the work or workmanship of these individuals or companies. This list is provided for information only. No recommendation is given or implied. The use of other individuals or companies for these services is acceptable, provided said individuals or companies meet the requirements of the State of Tennessee with regards to these types of installations. The State of Tennessee and its Deputy Electrical Inspector is the sole authority for approval of these types of installations. This list is provided for information only. The individuals or companies listed have simply met FLEC's basic requirements to be on the list. FLEC provides no warranty, guarantee, or responsibility for the work that may be performed by these individuals or companies.

Fort Loudoun Electric Cooperative (FLEC) is not responsible for the installation or upkeep of customer meter poles or customer temp poles. All customer meter poles and temp poles must be built to FLEC specifications. All fees that are due to FLEC must be paid prior to hook up. All customer meter poles and temp poles must pass a state electrical inspection prior to hook up.
