FORT LOUDOUN ELECTRIC COOPERATIVE
VONORE, TENNESSEE
Board Policy No. 329

SUBJECT: **UNDERGROUND SERVICE TO NEW STRUCTURES OR PREMISES**

I. OBJECTIVE:

To establish the policy for providing underground electric service to new individual homes

II. POLICY:

1. The member shall grant the Cooperative an easement providing for the location, protection, and necessary maintenance of the Cooperative's underground facilities (i.e. providing that no trees will be planted, buildings erected, or excavations made on the easement without coordination with the Cooperative).

2. If it becomes necessary to rearrange any part of the installed underground facilities due to false or erroneous information given either verbally or in writing to the Cooperative by the member, the member shall pay the entire cost of such rearranging, relocation, or additional infrastructure as might be necessary to put the facilities back in a safe and acceptable manner.

3. The member shall pay to the Cooperative any aid of construction before construction is begun, per Board policies.

4. The Cooperative shall furnish and install necessary conduits, conductors, switches and transformers to the member's meter, unless the member has made special arrangements with the Cooperative.

5. The meter location is to be determined by the Cooperative. If member desires meter at another location, the member shall pay the additional cost.

6. All facilities installed by the Cooperative including service wires to the meter shall remain the property of the Cooperative.

RESPONSIBILITY: **Engineering Departments**
Customer Service Department
