

# Approved Meter Pole Builders

All members needing a meter pole, temporary meter pole, or an RV pole will be responsible for either purchasing a pre-built meter pole that meets current FLEC specifications, or having a licensed electrician build and install a meter pole that meets current FLEC specifications. The individuals or companies listed below have simply met FLEC’s basic requirements to be on this list.

***FLEC DOES NOT accept any liability for the work or workmanship of these individuals or companies. This list is provided for information only. No recommendation is given or implied. The use of other individuals or companies for these services is acceptable, provided said individuals or companies meet the specifications of FLEC and the requirements of the State of Tennessee with regards to these types of installations. The State of Tennessee and its Deputy Electrical Inspector is the sole authority for approval of these types of installations. The individuals or companies listed have simply met FLEC’s basic requirements to be on the list. FLEC provides no warranty, guarantee, or responsibility for the work that may be performed by these individuals or companies.***
